

Subject: Product Quality Complaint - Urgent

To: Quality Assurance Department

We are writing to report a quality issue with a recent batch of medication received at our pharmacy.

Product: Amoxicillin 250mg Capsules

Batch/Lot Number: FDF-8834

Manufacturing Date: 15/01/2026

Expiry Date: 15/01/2028

Quantity Affected: 200 units

Complaint Description: Upon opening several blister packs, we noticed that approximately 15 capsules had visible cracks in the outer shell, with some powder leakage inside the packaging. This appears to be a packaging or sealing defect rather than a manufacturing contamination issue.
